FlexAir™ Pillow
(14" x 10")
Inflatable Patient Pillow
50/case

5084Y

Visiblanket™

5084Y

(50" x 84")

25/case

- Vibrant color provides high-visibility
- Highly absorbent material is backed with poly fluid barrier
- Acts as insulating wind barrier.

Space Blanket

5284SB

(52" x 84")

50/case

Mylar material helps to retain patient's own body heat

SnugFit™ Stretcher Sheets

- Fitted design keeps sheet taut and tidy on the stretcher
- Elastic corners prevent slippage; sheet does not move when patient moves
- Designed to fit most mattresses used in EMS applications
- Nonwoven material provides strength and protection
- Linen-soft texture is comfortable to the patient
- Helps avoid overhead costs associated with linen
- Can be used for patient transfer

NEW

SnugFit™ EMS Barrier Sheet (#53378)

- Poly backing provides a reliable barrier to fluids, helping keep stretcher contamination-free
